EDUCATION

Lovely Provessional University   Phagwara, Punjab
Computer Science Bachelors of Technology   August 2022 - July 2026
CGPA: 8.11

EXPERIENCE

Gokbour tech pvt.Ltd | Summer Training on React   June 2024 - July 2024
- Completed an 84-hour intensive summer training focused on front-end development using React.
- Built a comprehensive bakery store project, showcasing Reacts component-based architecture and state management.
- Enhanced proficiency in JavaScript, React hooks, and dynamic UI/UX design principles.
- Participated in hands-on projects and live coding sessions to solidify concept .

SKILLS

Programming Languages:	C++, Java, Python, HTML, CSS, C
Libraries/Frameworks:	Java Script, React, Angular, Bootstrap
Tools / Platforms:	Git, GitHub, Postman
Databases:	SQL, MongoDB, PostgresSQL

PROJECTS / OPEN-SOURCE

EduWithVY (Education Website) | Link   *MERN Stack, Responsive Web Design*
- Developed a platform to host and manage 1,000+ courses, featuring easy categorization, search functionality, and automated enrollment processes.
- Built a fully responsive UI with 100% device compatibility, ensuring seamless access across mobile, tablet, and desktop devices.
- Successfully delivered a scalable and maintainable education platform, improving data handling efficiency by 20% and laying the groundwork for future user growth and feature expansion.

CakeBake (Bakery Website) | Link   *React, Responsive Web Design*
- Developed a bakery store website using React, featuring a dynamic menu display and detailed product pages for an enhanced shopping experience.
- Designed a fully responsive interface, ensuring usability across 100% of devices, and integrated local storage to retain cart data, improving user convenience.
- Delivered a user-friendly platform optimized for seamless browsing and interaction, laying the foundation for future e-commerce integration.

CERTIFICATIONS

- Algorithms Specialization - **Coursera**
- Bits and Bytes of Computer Networking - **Coursera**
- Cloud Computing - **NPTEL(IIT Kharagpur)**

HONORS & AWARDS

- Ranked among the top 9 lakh users on LeetCode, showcasing a strong ability to consistently tackle and solve complex coding challenges in competitive programming.
- Solved 800+ coding problems across various platforms like LeetCode, GFG, HackerRank and Iamneo.
- Achieved 32nd place in the LPU x GeeksforGeeks Coding Contest, demonstrating strong algorithmic and problem-solving skills in a competitive environment.
- Ranked 4,941 out of 37.5K in the GeeksforGeeks Institution Rankings, reflecting strong coding proficiency and consistent performance in problem-solving.
